

Ulma Clear

Transparent (PE based) Perforated Tape

Features:

- Tape width can be tailored easily because of the perforations
- Can be torn bi-directionally in straight lines
- Latex-free & hypoallergenic
- Water-resistant and easy to handle
- Inconspicuous and Air-permeable
- Minimal adhesive residue on the skin

Applications:

- **Securing** tubing & devices such as IV cannulae
- **Anchoring** bulky dressings
- **Securing** tubing & dressings which need to be monitored, since it is transparent
- For **customised** tape dimensions due to perforations
