

Digital Sphygmomanometer (Wrist Type)

(Product Code: 505-019-10)

Product Description:

- Fast and accurate one-touch blood pressure measurement
- Sits comfortably on the wrist
- Personalised inflation every single time, regardless of arm size, blood pressure or time of day
- Sturdy high quality body construction
- Uses 2 pieces of alkaline AAA batteries

Specifications:

- Method of measurement: Oscillometric
- Automatic measurement of systolic, diastolic and pulse rate
- 48-set memories
- Range of measurement: 0mmHg to 300mmHg
- Range of pulse measurement: 40 to 199 beats/minute
- Accuracy: +/-3mmHg, Pulse +/-5%
- Deflation of pressure: automatic air release control valve
- Operating temperature: +10 to +40 degrees C, 30% to 85% RH
- Storage temperature: -20 to +60 degrees C, 10% to 95% RH

Packaging:

- Unit Dimension: approx. 7.20 x 7.20 x 2.90 cm
- Packaging: 48pcs in one master carton

Digital Sphygmomanometer (Upper Arm Type)

(Product Code: 505-019-20)

Product Description:

- Fully Automatic Upper Arm Style Digital Blood Pressure and Pulse Monitor
- Automatic Measurement of Systolic, Diastolic and Pulse at the Upper Arm
- Uses 4 pieces of alkaline AA batteries

Features:

- Method of measurement: Oscillometric
- 60-set memory with date and time
- Range of measurement: 0mmHg to 300mmHg
- Range measurement of pulse: 40 to 199 beats/minute
- Accuracy: +/-3mmHg, Pulse: +/-5%
- Deflation of pressure: automatic air release control valve
- Operating temperature: 10 to 40 degrees Celsius, 30% to 85% RH
- Storage temperature: -20 to 50 degrees Celsius, 10% to 95% RH

Packaging:

- Unit Dimension: 17 x 13 x 7 cm
- Packaging: 12pcs in one master carton
